

RESIDENTIAL DISCLOSURE LABEL

CleanChoice Energy, Inc.

Electric suppliers and distribution companies are required to provide customers with a disclosure label. The label enables customers to look at the energy sources, air emissions, and information about the supplier's company in order to make a more informed choice of a power supplier.

<p>Labor Information</p>	<ul style="list-style-type: none"> • 0% of the electricity associated with CleanChoice Energy came from power sources that used replacement labor during disputes between 6/1/16-5/30/17. • 87.1% of the electricity associated with CleanChoice Energy came from power sources with union contracts with their employees 6/1/16-5/30/17. 																																				
<p>NOTES:</p> <ol style="list-style-type: none"> 1. Electricity customers in New England are served by an integrated power grid, not particular generating units. The above information is based on the most recently available information for the NEPOOL Generation Information System. CleanChoice Energy procures all of its electricity supply through system power contracts from the system, not from specific generating units. 2.
